Lecturer Evaluation Feedback Form

Prepared for Orinsto Campus | 04 September 2026

This is a simple sample of how the lecturer feedback form can work. Students pick a lecturer, answer a short set of questions, and can leave optional comments. There are two ways the question set can be handled, explained below with sample questions.

TYPE 1

Type 1 — One Fixed Set of Questions

Every student answers the same set of questions, once per subject. The whole form — lecturer selector and questions — loads together as soon as it opens, and the student fills it in and submits in one sitting. Simple and quick — good for shorter courses or a single end-of-subject review, rather than staged check-ins.

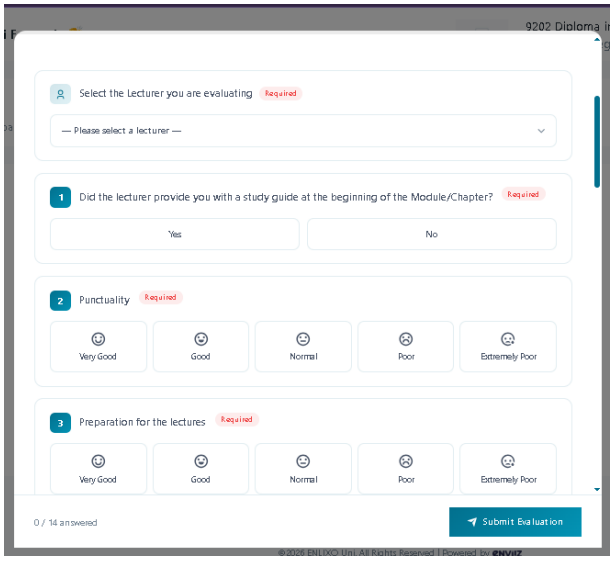

How it works

- The system finds the next subject the student hasn't reviewed yet.
- All questions load immediately together with the lecturer list.
- The student picks a lecturer, answers every question, optionally adds comments, and submits once.

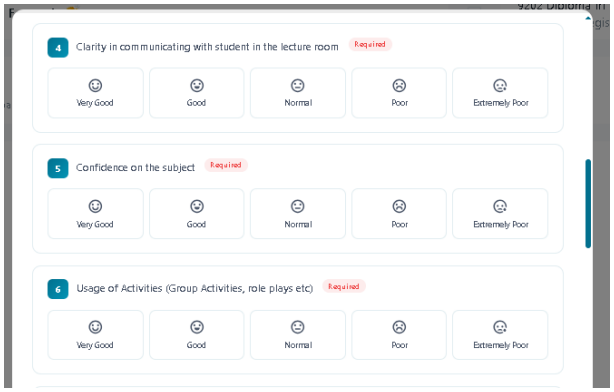

#	Sample Question	Answer Type
1	Did the lecturer provide you with a study guide at the beginning of the Module/Chapter?	Yes / No
2	Punctuality	5-point rating
3	Preparation for the lectures	5-point rating
4	Clarity in communicating with student in the lecture room	5-point rating
5	Confidence on the subject	5-point rating
6	Usage of Activities (Group Activities, role plays etc)	5-point rating
7	Usage of teaching aid (PPT, video clips, White board etc)	5-point rating
8	Motivation of students for learning	5-point rating
9	Catering to the needs of individual students	5-point rating
10	Encouragement of students to ask questions	5-point rating
11	Feedback for student questions	5-point rating
12	Returning the continuous assessment with comments	5-point rating
13	Availability or Support after lectures	5-point rating
14	Please make your other comments about the lecturer, in the space provided below	5-point rating

Plus an optional free-text comments box below the 14 questions (up to 1000 characters).

Rating scale: Very Good · Good · Normal · Poor · Extremely Poor.

TYPE 2

Type 2 — Grouped Questions, Loaded Dynamically

Here the questions are not fixed in the page — they're loaded after the student picks a lecturer, and they're organised into numbered groups (e.g. Module Evaluation Questionnaire, Online Learning Experience) rather than one flat list. Each group has its own set of sub-questions, all using a 5-point agreement scale instead of Yes/No or a face-rating.

Loading interface

- On open, the form shows the intro text and the lecturer selector only — the question area shows a placeholder: "Select a lecturer above to load the evaluation questions."
- Once a lecturer is chosen, the questions are fetched and the placeholder is replaced with the full grouped question set for that lecturer/subject.
- Groups are numbered (1, 2, 3...) with a heading, and each question inside is numbered as a sub-item (1.1, 1.2, 1.3...). A final standalone question and an optional comments box appear after the groups.
- The footer counter (e.g. "0 / 26 answered") and progress bar update as the student answers, the same as Type 1.

Answer scale used

Not Applicable · Strongly Disagree · Disagree · Agree · Strongly Agree

Sample questions — Group 1: Module Evaluation Questionnaire

#	Sample Question	Answer Type
1.1	The subject has been interesting	Agreement scale
1.2	The module has allowed me to explore ideas or concepts in depth	Agreement scale
1.3	The module is well organised and is running smoothly	Agreement scale
1.4	My course has challenged me to achieve my best work	Agreement scale
1.5	The IT resources and facilities provided have supported my learning well	Agreement scale
1.6	The library resources (books, online services, learning spaces) have supported my learning well	Agreement scale

Sample question — later group

#	Sample Question	Answer Type
3.6	I would recommend the online learning to other students	Agreement scale

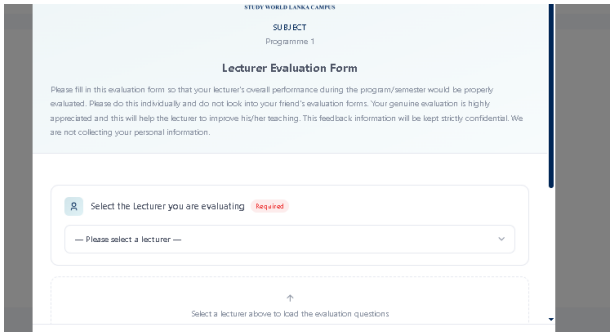

(Groups 2 and the rest of group 3 follow the same pattern — additional sub-questions under their own group heading.)

Sample question — standalone (after the groups)

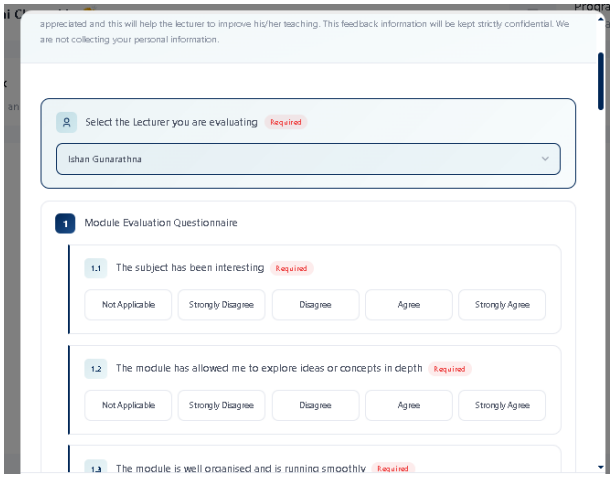

#	Sample Question	Answer Type
4	Looking back on your experience, are there any particular positive or negative aspects you would like to highlight?	Agreement scale

Followed by the same optional free-text comments box as Type 1. In this sample the full questionnaire totals 26 questions across all groups.

In short: **Type 1** is one simple form, asked once. **Type 2** is the same idea, but asked again at a few points during the course, with questions that can change each time.

Sample only — question wording, ratings, and number of questions can be adjusted to fit your needs.
