Subject: Request to Develop the Land Located at Sasrutha Mawatha, Piliyandala, as a Public Playground and to Address the Difficulties Faced by Our Family

Hon. President,

I am a resident of Sasrutha Mawatha, Piliyandala, and I respectfully submit this letter to you with great hope that the concerns of an ordinary citizen such as myself will receive your kind attention.

There is a large area of land located along Sasrutha Mawatha which has remained overgrown and neglected for a considerable period of time. This has become a significant concern for the residents of the area. On several occasions, we have requested that this land be developed as a playground where children and young people in the area can engage in sports activities. However, our request has not yet been fulfilled.

At one point, young people in the area cleaned the land and prepared it for playing cricket. Unfortunately, they were unable to continue using the location for a long period because a retired DIG officer residing on Sasrutha Mawatha repeatedly objected to cricket being played there and made complaints to the police.

At present, it appears that the land is being used by various individuals for marking boundaries, cultivation and other activities, including possible unauthorized constructions. Furthermore, because the land has been neglected and overgrown, it has become a habitat for snakes and other potentially dangerous animals.

Therefore, I respectfully request Your Excellency to investigate the ownership and legal status of this land. If there is no private legal owner or if the land is suitable for public use, I kindly request that it be developed as a **public playground for the children and youth of the area**. Such a facility would greatly contribute to the physical development and sporting abilities of the young people in our community.

I would also like to bring another serious matter to your attention.

A Police OIC officer resides close to our residence on one side, while a DIG officer resides in the house directly opposite our residence. We have experienced situations where their official positions and authority appear to have affected our ordinary family life.

Although we live peacefully and do not cause any disturbance to anyone, officers from the Piliyandala Police have repeatedly visited our residence for inquiries and inspections. Unfortunately, we have not noticed any significant improvement in this situation. On occasions when several family members or visitors are present at our residence, we have experienced situations where the Piliyandala Police have come to our home.

I have two children who are pursuing their education while living with me. They require a peaceful environment in order to study and continue their educational activities properly. However, animals kept at a neighbouring residence create considerable noise on a daily basis, which seriously affects the children's ability to study and concentrate. We are also concerned about whether the continuous noise and disturbance may cause unnecessary stress or other difficulties for the children.

Although we have informed the police about this matter on several occasions, we have not received a satisfactory solution.

In addition, various animals are being kept at the neighbouring residence close to our home. The condition of the surrounding area has become unhygienic due to these animals and the vegetation around the property. As a result, mosquitoes, flies, snakes, lizards and other animals frequently enter or come close to our residence.

We have made several complaints regarding these matters to the relevant Divisional Secretariat authorities and the Police. Although we were informed that action would be taken, there have also been occasions where the relevant officers did not visit the location on the dates they had indicated.

As ordinary citizens, these circumstances have caused considerable inconvenience and distress to our family. Therefore, I respectfully request Your Excellency to arrange for an **independent and fair investigation** into these matters and to ensure that the law is applied equally and fairly, regardless of the position, rank or status of any individual involved.

I further kindly request that the ownership and status of the land at Sasrutha Mawatha be properly investigated and, if there is no legitimate private ownership preventing public use, that the land be developed as a playground for the children and youth of our community.

I sincerely hope that Your Excellency will kindly give your attention to these matters and take appropriate steps to ensure justice and a fair solution for ordinary citizens such as ourselves.

Thank you for your kind attention and consideration.

Yours faithfully,

Mr. Manjula Perera
Piliyandala
